

Conference Microphone CM-303A

- Base material : plastic, microphone rod and base are separated
- Transduction method : capacitive
- Frequency response : 100Hz-16KHz
- Directivity : Cardioid pointing
- Output impedance : 200 Ω
- Sensitivity : -45dB \pm 2dB
- Power supply voltage: DC 3V/(2 x 1.5V AA) battery with music
- Configuration : 5m cable, \varnothing 6.35mm plug + XLR female connector
