

Professional power amplifier

PA Series

Specifications:

- Classic two-stage power supply class H circuit;
- With over-temperature, overcurrent and limited protective circuit;
- With three levels of input sensitivity for your choice:0.775v/1.0v/1.4v and the best match for pre-amplifier;
- With many modes for your choice: Stereo/Mono/Bridge(bridge is not suggested for use.);
- With the selectable function of Low-pass and full range;
- With two-stage linear intelligent variable speed fan cooling.

Technical parameters

Model:	PA-1200
Channel:	A/B
Output power(8 Ω):	600WX2
Output power(4 Ω):	900WX2
Bridge power(8 Ω):	1200W
S/N:	>98dB
Frequency response:	+/-0.1dB,20Hz-20KHz
THD:	≤0.01% 8 Ω
Sensitivity:	0.775V/1.0V/1.4V
Damping factor:	>500@1KHz/8ohms
Gross weight:	16.5kg
Dimension:	490mm x 450 mm x 90mm
