

Professional power amplifier

Specification

With 3U case, 1.5-3mm in thickness.

Big power transformer, high end capacitor, more powerful and stronger.

Class H circuit, Stable and safe.

With over-temperature, overcurrent, Short circuit, ultrahigh frequency protect function.

Limiting process make the machine work safer.

Model:	PA-2400
Output power(4Ω):	2x1200W
Output power(8Ω):	2x1800W
Bridge power (8Ω) :	2400W
Damping factor:	>400
Frequency response:	+/-0.1dB/(20HZ-20KHZ)
S/N:	112dB
THD:	0.001%@8Ω1KHZ 3W
Sensitivity:	0.7/1.0/1.44
Input Impedance:	10K
Gross weight:	36.5KG
Dimension:	480*252*140mm
