

Feature

Z4 speaker is a compact fullrange speaker specially designed for fixed PA installation 4inch fullrange driver is sealed in the bassreflex sound box. This speaker has smooth frequency response, high SPL output besides littledistortion. It is applied for distributed system, shortdistance listening, or supplement for PA system. Because of ittssmall dimension, as the application for distributed system, it can also be applied for huge space. It can be installedby hanging or ceiling, or supported by MU stand, or simply placed on suitable table. Z4 speaker is suitable forconference, teaching and other occasions where the requirement for sound clarity is high. And it can provide compactPA solution to small space such as bar, small club and theatre when combined with subwoofer.

Technical Parameters

Model	Z4
Frequency Response	(-6dB) 110Hz-17kHz
LF Response	(-10dB) : 80Hz
Sensitivity	(1W/1m): 91dB
SPL(Sustained/Peak)	110dB / 116dB
(HxV)	110°x 110° conical
Drive component	1x 4" (100mm)/1" (25mm) VC
Rated Impedance	8 Ω
Suited High Pass Filter	65Hz
Connector	1 x NL4 / 1 x Press Wire Terminal
Rated Power	80W
Weight	1.7kg
Dimension	141×141×173MM

Cabinet
